

# So You Think You Can't Be Fired? (or How to Better Avoid Nights Full of Worry!)\*

Presented by: Cori Fecho, PSEA UniServ Representative

March 3, 2020 ♦ Eastern Region Office  
5:30-6 p.m. registration/dinner ♦ 6-8 p.m. workshop

People tend to think that a difficult job situation will never happen to them. They will never find themselves on the wrong side of a discipline issue. In our office, we have seen almost everything! With recent changes in Mandatory Reporting and the explosion of Social Media, we find more and more people in tough situations. Also when an employee may be stressed outside of work, it often

leads to a wrong decision inside of work. This session will give you actual incidents that you probably never even thought could happen but did to regular, excellent employees. Most don't end in being fired, but we explain the difficult position that Districts find themselves navigating and the sleepless nights for the employee until we are hopefully able to get the situation rectified. ***Note: This workshop is designed for support staff.***

\***Paraprofessionals**, if taking this workshop for the hours, it is recommended that you obtain pre-approval from your employer to ensure the hours will be accepted.
