

Student Advocacy and Classroom Community Building When Working with Violent Students and Violent Situations (part 2)*

Presented by: Cori Fecho, PSEA UniServ Representative

February 25, 2020 ♦ Eastern Region Office
5:30-6 p.m. registration/dinner ♦ 6-8 p.m. workshop

A student who has violent outbursts in the classroom is a difficult situation for everyone involved. This often cultivates a classroom environment that is not welcoming to anyone as resources are not allocated, frustrations set in, and behaviors often escalate. This session will focus on using the practical suggestions

discussed in session one by building on how to advocate more effectively for all students, focus in on what resources you need to be effective in the classroom, and to rebuild classroom community to create a welcoming environment for all students. ***Note: This workshop is geared toward teachers/certificated members.***

***Members with teaching certificate**, if you provide your PPID #, you will receive 2 Act 48 hours for this workshop.
