SIX (6) HOUR  
ACT 48/CHAPTER 14 OPPORTUNITY\*

Wednesday, June 14, 2023  
9:30 a.m. to 3:30 p.m.  
Pittsburgh Zoo & Aquarium

*Why Zoos Matter*

For many, a day at the Zoo is a recreational opportunity to see exotic animals from around the world. However, there is a significant amount of effort focused on protecting and conserving these amazing animals; both in captivity and behind the scenes. In this workshop, participants will get a peek at the many special conservation projects that the Pittsburgh Zoo & Aquarium supports, such as our African Elephant breeding program, cheetah conservation and coral propagation. Guest speakers, special tours and meeting education animal ambassadors will be on hand to enrich the learning process and provide ideas on how to utilize the Zoo as a 70-acre classroom to teach biology, conservation and much more.
