

2018-2019 Executive Committee Schedule

Tentative list of Executive Committee topics

(Pending changes due to new issues or demands that haven't been anticipated)

September 26: Member Benefits and Legal Protections – Chuck Herring
Update on “Where are We Now” in a Post-Janus World –
Jimmy Gilbert

October 24: Kades Presentation on Member Benefits
There are many benefits to being a PSEA member, and one of them is that your membership can save you money – maybe a lot of money! The PSEA Member Benefits program offers you thousands of discount and savings opportunities including mortgages, insurances, credit cards, discount restaurant and movie tickets, and so much more. In this workshop, you will learn about these programs exclusively available to you and your family, and how to obtain more information. All because of your PSEA membership!

January 23: Protected Concerted Activity: Paul Gottlieb
While most of us have an article in our contracts called the “Rights of the Association,” these provisions don’t even tell half the story. What you can and cannot do as a Union is a matter of law, so you don’t have to bargain over it. We will briefly describe this concept, its origins and how it might work for you and your Union.

February 27: Building a Relationship Between EA and ESP: Brad Gross and Greg Moll
Separate, but not alone. Do your EA and ESP groups isolate themselves from one another? Is it possible that more can be done if we pull those two islands closer together? Let’s discuss ideas on how to bridge that relationship for even further strength and support.

March 27: Kades Presentation on Act 5
Join us as we discuss the most recent pension legislation, known as “ACT 5”. During this session, we will explain the new options available to new AND EXISTING PSERS members, and how these changes might impact you and your plans for retirement.
