The presentation will explore what is meant by, "Educating the Whole Student" and the essential components of this model. We will focus on the role ESP members play in educating students to ensure they are healthy, safe, engaged, supported, and challenged. We will also discuss how this concept can be used in a subcontracting fight, difficult bargaining, and for positive public relations for a local. To gain the support and respect ESP members deserve, we must educate the community about the vital roles ESPs play in educating students and how each ESP classification plays an integral role in the education process.
